

Gustavo Decker Zambrano

IT Applications Specialist, IT Consultant, Full Stack Developer

Profile

Full Stack Developer | JS/TS | Node.js | React.js | NestJs.

Full Stack developer, based on Guayaquil - Ecuador, I've been developing software more than 10 years, focusing on web development the last 6 years, using agile methodologies as SCRUM and kanban.

Currently I am working on Javascript and Typescript as a FullStack developer, using Node.Js and Nest.js for the backend and React with javascript and typescript for the frontend and Redux as state management.
